## Reducing garbage with the 3 R's

### The importance of individual responsibility

Do you know of the 3 R's that can help to decrease garbage volume? They are: Reduce, Re-use and Recycle.

The most important of these is to Reduce the amount of garbage you dispose of. Let's keep the 3 R's in mind and decrease our garbage volume at homes, schools and businesses.

## Create a pleasant environment by correctly separating your garbage

### Subsidies for the installation of raw garbage processors!

In Aisai City, in line with our effort to reduce garbage levels, those who purchase raw garbage processors will be subsidized. Please contact us (contact info below) for further details of subsidies.
